

INSTRUMENTATION TRAINING

Equip new technicians with essential skills in flow, level, pressure, and temperature. Our concise 2-day class ensures proficiency for your team.

Training Dates:

February 18th-19th, 2026
 April 8th-9th, 2026
 June 17th-18th, 2026
 August 12th-13th, 2026
 October 14th-15th, 2026
 December 9th-10th, 2026

**Customized On-Demand Training Available.

HANDS-ON LEARNING

- Dive into practical labs covering control signals, flow, level, pressure, and more.
- Gain confidence through hands-on experience with cutting-edge devices.

EXPERT GUIDANCE FOR SMALL GROUPS

- Learn from industry experts in a small class setting (limited space available).
- Receive personalized attention and guidance for effective skill development.

ALL INCLUSIVE TRAINING

- No need to bring tools—everything is provided.
- Affordable pricing available - call to request a quote!
- Arrange your own accommodations for a hassle-free experience.

TWO DAY TRAINING EXAMPLE SCHEDULE

Day1

- 8:00 - 8:30** • Introduction and training expectations
- 8:30 - 9:00** • Control Signal basics
 - mA vs voltage control signals
 - Line vs loop power controls
 - PID control loops
- 9:00 - 9:30** • Flow technology focusing on Coriolis and Mag Meters
- 9:30 - 9:45** • **Break**
- Hands-on flow lab to learn menu structure and basic setup/commissioning
- 12:00 - 1:00** • **Lunch**
- 1:00 - 1:30** • Level technology focusing on Free Space and Guided Wave Radar
- 1:30 - 4:30** • Level lab to learn menu structure and basic setup/commissioning
 - Mapping lab
- 4:30 - 5:00** • Endress+Hauser website and general review

Day 2

- 8:00 - 8:30** • Pressure technology focusing on a single point and differential pressure
- 8:30 - 10:30** • Hands-on pressure lab to learn menu structure and basic setup/commissioning
- 10:30 - 10:45** • **Break**
- 10:45 - 11:00** • Liquid Analysis devices focusing on CM44 platform
- 11:00 - 12:00** • CM44 lab to learn menu structure and basic setup with PH and conductivity probes
- 12:00 - 1:00** • **Lunch**
- 1:00 - 1:30** • Temperature technology overview and verification
- 1:30 - 2:30** • Control Valve overview and operation
- 2:30 - 2:45** • **Break**
- 2:45 - 5:00** • General review and wrap up
