YOUR TRUSTED ADVISOR

FOR PROCESS MEASUREMENT
& CONTROL

YOUR DEDICATED Control Valve Repair Partner

MMS has decades of experience repairing control valves from major manufacturers. We deliver ANSI-verified valve repair in our Des Moines shop and on-site across the Central U.S. Our technicians, processes, and procedures, are certified by SAMSON as their Authorized Service Provider (ASP).

0.5" – 6"

SHOP REPAIR CAPABILITY

Up to 300 lb flanges; every valve ANSI-verified

ON-CALL

EMERGENCY FIELD RESPONSE

Service tech on-site to repair your valve in the field.

SCOPE OF SERVICE

In-Shop Repair

Full disassembly, evaluation, rebuild in our Des Moines facility.

On-Site Field Service

Technicians dispatched across MMS territory.

In-Line Valve Work

We can perform in-line repairs when removal isn't an option.

National Project Support

SAMSON refers us for projects beyond our standard territory.

PROCESS & STANDARDS

- ✓ Every valve evaluated, repaired, tested, and verified
- ✓ Tested to ANSI standards (and others as required)
- ✓ Hydrotesting performed when specified
- ✓ Standard turnaround: 3–4 weeks · Faster on common valves
- ✓ Pricing scoped per valve, material, and repair complexity

AUTHORIZED ASP TERRITORY

MN · ND · SD · IA · NE · CO · KS · MO

Plus national projects on SAMSON referral.
