

ALL AROUND VALVE PARTNER SERIES

SAMSON GLOBE VALVES

Precise control where the process won't forgive a mistake. SAMSON globe valves bring **100+ years** of German valve engineering to your most challenging control loops - built to deliver safe and accurate reliability where uptime matters most.

MODULAR - ECONOMICAL TOTAL COST OF OWNERSHIP

One modular SAMSON globe platform covers every duty from general process, severe service, and cryogenic (-325°F), to steam, toxic, and corrosive - on a single valve body with a shared actuator footprint and spare-parts catalog. A complete trim library (parabolic, V-port, perforated, multi-stage, anti-cavitation) swaps in the field instead of on the spec sheet. The payoff: lower inventory, lower capital cost, and longer-lasting equipment.

THE LINEUP

TYPE 3241/3251
CLASS 150 - 2500

SIZES
NPS ½" - 12"

- Field reversible nested multi-spring actuator.
- Maintenance free, hand tightened, self-adjusting PTFE V-ring packing.
- Integrated accessory attachment eliminates external tubing and protects mechanical feedback linkage.

TYPE 251GR
CLASS 150 - 900

SIZES
NPS ½" - 12"

- Screwed-in or clamped-in seats or cage trims in the same body.
- Some of the highest Cv's in the industry via an optimized flow path that allows for improved flow rate
- High-temp pressure balancing with leakage class V

TYPE 3291
CLASS 150 - 900

SIZES
NPS ½" - 8"

- Service friendly with a cage retained seat - no special tools needed.
- Built for severe service with anti-cavitation options, and cryogenic-rated extensions down to -325°F (-198°C)

ONE GLOBE VALVE PLATFORM · ONE MODULAR BODY · EVERY DUTY
STANDARDIZATION FROM GENERAL TO SEVERE SERVICE APPLICATIONS

THE COMPLETE CONTROL VALVE PACKAGE

SAM GUARD®

SAM GUARD

AI predictive analytics that catches valve failures days to weeks before they occur. Actionable alerts help prevent downtime and drive ROI.

DIGITAL POSITIONERS

Types 3730 / 3731 series. HART, PROFIBUS, FOUNDATION Fieldbus. Partial-stroke testing. Explosion proof.

SEVERE-SERVICE

Anti-cavitation, noise reduction, welded heat jackets, and metal bellows. Drop-in upgrades for installed bodies.

Steam conditioning valve

MMS ASP SERVICE

SAMSON's Central U.S. Authorized Service Provider for factory-certified repair, on-site and in our DSM shop.

READY TO SPEC? LET'S WALK YOUR PLANT.

Free Valve Walkdown - an MMS technician walks your facility, identifies failing or oversized actuators, and quotes Max-Air upgrades from regional stock.
